

P o l e m o u n t i n g

BDS can provide a pole mounting solution for your solar panels from small 5 watt panel mounts to large single panel, 2 panel or 3 panel mounts. The basic list below is from our extensive range that can be manufactured to suit your specific requirements for all types of solar panels.

PMA-01

PMG-02 (PMG-01 as above with one panel)

TSX-15 - To suit BPSX5M & BPSX10U panels for flat roof, wall or pole mounting with a fixed tilt of 20° or 70°

PMA-01 – To suit up to 50 watt panels for pole and wall mounting complete with fully adjustable tilt.

PMA-02 – As above but for 2 panels

PMG-01 – To suit 50 to 100 watt panels with a fully adjustable tilt angle.

PMG-02 – As above but for 2 panels.

PMG-03 – Top of pole mounting kit to suit 3 panels.

Due to the extensive range of solar panels now available, we can provide a design solution service to enable us to provide adjustable tilt fixing kits for all makes and models of solar panels to suit any pole requirements including side of pole and top of pole mounting for up to 3 panels. U bolt of strapping kits can be provided to suit any pole diameter.
